Academic Details

**Bachelor of Engineering (B.E.)
Mechatronics**
Mehran University of Engineering and
Technology, Hyderabad;
2024-2028

Soft Skills

**Analytical | Collaborator | Leader |
Adaptable | Problem-Solving | Time
Management | Best Practices |
Communication**

Technical Skills

- Programming Languages:**
Typescript, JavaScript, HTML/CSS, Node.JS
- Frameworks:**
React, Next.js, Bootstrap, Tailwind, MaterialUI

Core Competencies

Responsive Web Design

Cross-Browser Compatibility

Version Control (Git)

Debugging

State Management

API Integration

Frontend Testing

Performance Optimization

CSS Frameworks

Personal Details

Languages Known: English, Urdu and Sindhi
Address: Hyderabad , Pakistan

Profile Summary

- Frontend (**Typescript , React , Next.JS , Node.Js**) with a strong background in building scalable web applications
- Demonstrated ability to manage and deliver projects **efficiently**, from initial planning and design to final deployment and maintenance.
- Committed to **staying updated** with the **latest industry** trends and technologies, continuously enhancing skills to provide innovative solutions
- Working professionals **achieved Posture improvement** with help of my **Smart Chair**.
- Strong advocate for **best practices** in coding, **responsive design**, and performance optimization.
- Adept at **collaborating** with cross-functional teams to **implement** effective solutions that enhance **UX/UI** and application **performance**

Academic Projects

E-commerce Website**August-2024**

Tools: React , Typescript , Node.Js , Bootstrap

Join 500+ shoppers, explore 150+ curated products, and enjoy savings of up to 50%—all with direct, hassle-free shipping to your door!

Responsibilities:

- Focused on creating an **intuitive user interface** with **efficient navigation** for seamless transactions.
- Integrated an **"Add to Cart"** feature and a secure **payment gateway** for a seamless shopping experience.
- Integrated dynamic product listings and user-friendly navigation for a smooth shopping experience.
- Ensured **UX/UI** principles were applied for a seamless and intuitive shopping experience

Weather App**August-2024**

Tools: React, Node, Docker, Arduino Programming

Architected a weather application leveraging React and Typescript, which processes live weather data for 100+ global locations; the tool is now utilized by over 1,000 daily users, enhancing customer satisfaction.

Responsibilities:

- Developed a weather application using **React** and **Typescript** that displays real-time weather data from OpenWeatherMap **API** . Live demo:<https://weather-app-react-ts-eight.vercel.app/>
- Created custom weather icons and backgrounds based on current weather conditions.
- Used **Tailwind CSS** to design a **responsive layout** that adapts to different screen sizes
- Added features like temporary error messages for invalid inputs to improve user experience.
- Optimized** application **performance** using **Web pack** and other modern development tools.

Academic Achievements

- Led the college development team, organizing and managing various development projects and events, enhancing the team’s creative output and visibility.
- Recognized for **problem-solving** and **team collaboration** during academic projects, contributing to enhanced project efficiency and success.
- Awarded for **innovative design solutions** in web development, focusing on **user-centered designs** and **scalable applications**.
